Stirling Minerals Limited (ASX: SMZ) (“Stirling” or the “Company”) is pleased to announce that it has received shareholder approval to proceed with the acquisition of DMC Mining.

As announced on 5 November 2010, the Company entered into an agreement to acquire DMC Mining from Cape Lambert Resources Limited (ASX: CFE) (“Acquisition”) subject to satisfaction of a number of conditions precedent including the Company completing a placement of shares to raise not less than \$96,000,000 (“Placement”). As detailed in the Prospectus, DMC Mining's principal asset is its current 80% interest in the Mayoko Iron Ore Project ("**Mayoko**" or "**Mayoko Project**"). The Mayoko Project represents a near term development opportunity in an emerging iron ore province in West Africa. Unlike other iron ore projects in the region, it has excellent infrastructure endowment with a nearby underutilised, heavy haulage mineral railway passing within 2km of the main prospect at Mt Lekoumou and terminating at the port of Pointe Noire on the Atlantic Ocean.

Upon completion of the Acquisition and prior to re-quotation, the Company will change its name to "African Iron Limited" (ASX: AKI) and all members of the current Board will resign and the new Board appointments set out in the Prospectus will oversee exploration activities at the Mayoko Project.

Shares in the Company were suspended from trading today and will remain in suspension until the Company re-complies with Chapters 1 and 2 of the ASX Listing Rules, which includes a consolidation of the Company's capital on a 6.75 for 10 basis. Shareholders will receive a holding statement showing their consolidated shareholding in the Company in the early January 2011. The Company anticipates being re-quoted on ASX by mid-January 2011.

Yours faithfully  
Stirling Minerals Limited
