

Company Presentation

Cape Lambert Resources Limited (**ASX: CFE**) (**Company**) is pleased to attach a copy of the presentation which will be presented by Company executives at Mining Indaba this week.

Yours faithfully
Cape Lambert Resources Limited

Claire Tolcon
Company Secretary

Cape Lambert is an Australian domiciled, mineral investment company. Its current investment portfolio is geographically diverse and consists of mineral assets and interests in mining and exploration companies.

The Company continues to focus on investment in early stage resource projects and companies, primarily in iron ore, copper and gold. Its "hands on" approach is geared to add value and position assets for development and/or sale.

The Board and management exhibit a strong track record of delivering shareholder value.

Competent Persons Statement

The Metallurgical information in this presentation is based on information compiled by GV Ariti who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Ariti has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Mr. Ariti consents to the inclusion in this report of the matters based on his information in the form and the context in which it appears.

The Exploration information in this presentation is based on information compiled by K Bischoff who is a Member of The Australasian Institute of Mining and Metallurgy. Mr. Bischoff has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Mr. Bischoff consents to the inclusion in this report of the matters based on his information in the form and the context in which it appears.

Mineral Resources

Exploration Target Size Statements

Target sizes quoted in this presentation are conceptual in nature and in respect of the target sizes quoted, there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource. Target sizes referred to in this presentation refer to potential tonnages of iron ore mineralisation that have been estimated using available exploration information including historic and contemporary geological mapping, geochemical sampling of outcrops, pits and trenches, wide spaced diamond drill holes and modelling of ground and airborne geophysical survey data.
