

Quarterly Activities and Cash Flow Report for the Quarter Ended 30 September 2020

CORPORATE

Strategy and Business Model

Cyclone Metals Limited (**ASX: CLE**) (**Cyclone Metals** or the **Company**) (previously Cape Lambert Resources Limited) is an Australian domiciled mineral development and investment company. Cyclone Metals has interests in several exploration and mining companies, providing exposure to iron ore, copper, gold, uranium, cobalt, lithium and lead-silver-zinc assets in Australia, Europe, Africa and South America (refer Figure 1).

Cyclone Metals's strategy is to acquire and invest in undervalued and/or distressed mineral assets and companies (**Projects**) and:

- improve the value of these Projects, through a hands-on approach to management, exploration, evaluation and development; and
- retain long-term exposure to these Projects through a production royalty and/or equity interest.

Cyclone Metals aims to deliver Shareholder value by adding value to these undeveloped Projects. If Projects are converted into cash, the Company intends to follow a policy of distributing surplus cash to Shareholders

Board Restructure

During the quarter, the Company announced the appointment of Mr Terry Donnelly as Non-Executive Chairman and the resignation of Mr Mark Hancock as Non-Executive Director of the Company with effect from 4 August 2020.

Mr Tony Sage was previously providing the services of Executive Chairman to Cyclone Metals via Okewood Pty Ltd. To enable Mr Sage to focus on his role as Executive Director and growing Cyclone Metals business, Mr Terry Donnelly will act as Independent Non-Executive Chair of the Company. The appointment of Mr Donnelly to this role is also consistent with the recommendations of the ASX Corporate Governance Principles and Recommendations.

Placement

On 25 August 2020, the Company issued 69,722,223 shares at an issue price of \$0.0018 per share to raise proceeds of approximately \$125,500 (before expenses) (**Placement**). The Placement shares were issued using the Company's capacity under Listing Rule 7.1A, and without shareholder approval.

Subsequent to the quarter end, the Company successfully completed a placement to raise cash proceed of \$2m (before expenses).

Exercise of Options

On 17 September 2020, the Company issued 10,000,000 fully paid ordinary shares upon the exercise of options at an exercise price of \$0.006 per share which expire on 30 June 2023.

Winance Finance Facility

On 31 July 2019, the Company announced that it had secured an A\$15m finance facility with Winance Investment LLC (**Winance**) for mining exploration and general working capital purposes.

The initial tranche of A\$1.2m (1,200 convertible notes) was drawn down on 8 August 2019 with the conversion of initial tranche A notes (\$480k or 480 convertible notes) unconditional and the conversion of initial tranche B notes (\$720k or 720 convertible notes) subject to prior approval by Cyclone Metal shareholders (which was subsequently received on 11 February 2020). Further tranches of A\$13.8m is available in tranches of A\$500k each upon full conversion of the notes from the previous drawdown, subject to a cooling off period.

Full terms and conditions of the convertible securities are included in the announcement released on 31 July 2019.

During the quarter, there were no conversions of notes. As at 30 September 2020, Winance had 10 convertible notes remaining.

Winance Loan

On 24 January 2020 the Company entered into a \$2.2m secured loan facility with Winance (**Winance Loan**). The parties agreed to vary the terms of the Winance Loan as announced on 30 June 2020.

On 17 September 2020, the Company advises that the parties have agreed that the principle amount of \$2.2m plus accrued interest and outstanding fees will be converted into Shares (subject to receipt of shareholder approval) (**Winance Debt Shares**) based on a share price of AUD \$0.004 on 30 November 2020 (**Extended Maturity Date**).

Prior to the issue of any Winance Debt Shares, the parties varied the agreement so that Shareholder approval was not required for the issue of 450,000,000 Winance Debt Shares (but with the Company's 15% capacity under Listing Rule 7.1) and any further issue of Winance Debt Shares will still be subject to Shareholder approval.

On 22 October 2020, the Company issued 450,000,000 Winance Debt Shares at a price of \$0.004 per Share to Winance in part reduction (\$1,800,000) of the Winance Loan, using the Company's capacity under Listing Rule 7.1. Shareholder approval is sought at the upcoming annual general meeting to provide the Company with the opportunity to issue further Winance Debt Shares to satisfy the balance of the Winance Loan.

All other terms and conditions of the Winance Loan remain unchanged.

Extraordinary General Meeting

During the quarter, on 3 September 2020, the Company announced that it would be holding an extraordinary general meeting (**EGM**) of shareholders on 6 October 2020. Subsequent to the quarter end, the EGM was held with all resolutions carried.

Appendix 5B Quarterly Report and Statement of Cash Flows

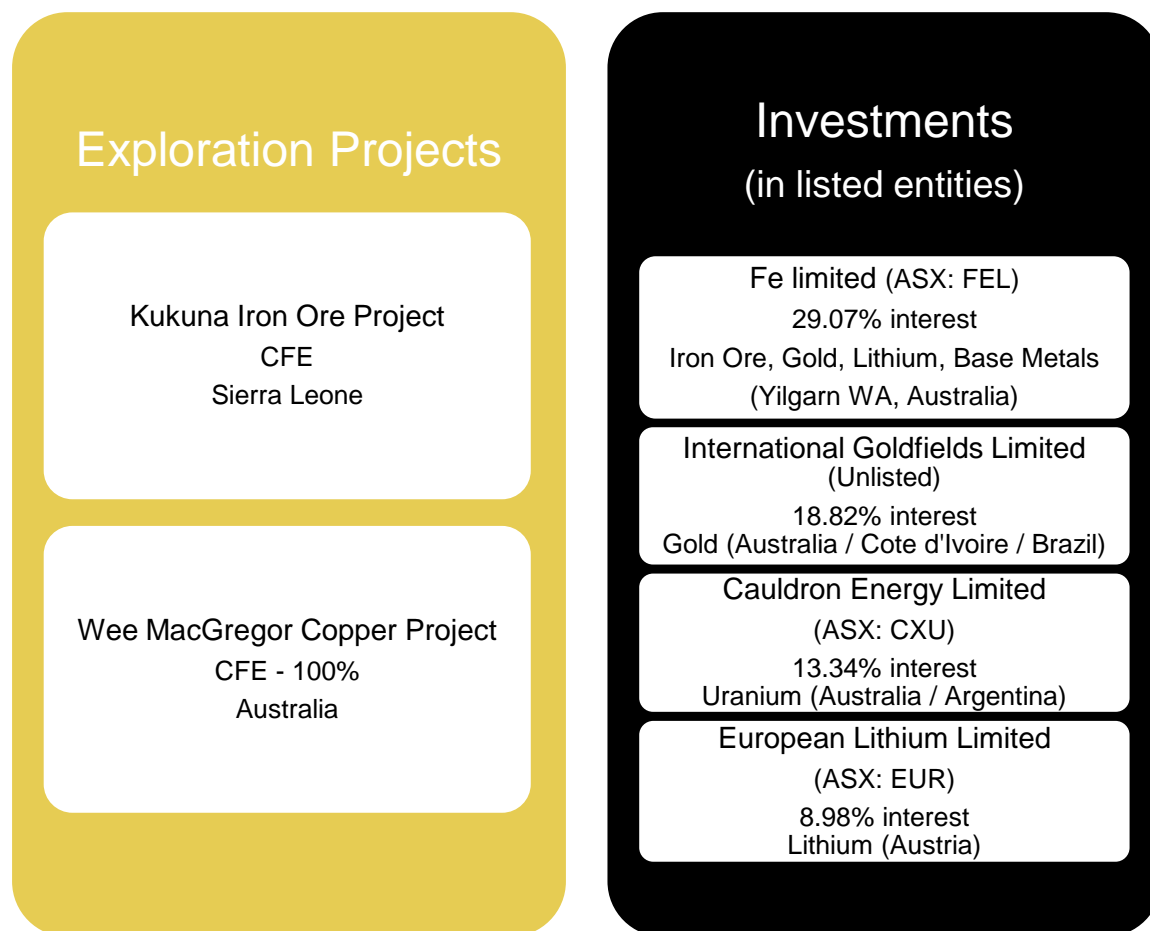

The ASX Appendix 5B quarterly report is attached to and lodged with this report. The Company's Appendix 5B Quarterly Report covers the 3-month period from 1 July 2020 to 30 September 2020. As at 30 September 2020, the Company had approximately A\$109k.

Payments to Related Parties and their Associates

In accordance with ASX Listing Rule 5.3.5, payments to related parties of the Company and their associates during the quarter totalled \$67,567 relating to the Executive Director salaries and Non-Executive Director fees. This amount is included at Item 6.1 of the Appendix 5B.

Refer to the Remuneration Report in the Annual Report for further details on director remuneration and related party transactions. These amounts are included at Item 6.1 of the Appendix 5B.

Figure 1: Group Structure

PROJECTS**Marampa**

Marampa is an iron ore project at the development stage, and is located 90 km northeast of Freetown, Sierra Leone, West Africa (**Marampa** or **Marampa Project**). The Marampa Project comprised one mining licence (ML05/2014) comprising 97.40km² and one exploration licence (EL46A/2011) comprising 145.86km². The status of these tenements is as follows:

ML05/2014

In 2014, Marampa Iron Ore (SL) Limited (**Marampa SL**), a wholly owned subsidiary of Cyclone Metals was granted the mining and environmental licences for ML05/2014 (together the **Mining Licence**). The Company has spent circa US\$62.7m on exploration and development to date on the Marampa Project.

In September 2018, Marampa SL received a letter from the Sierra Leone Ministry of Mines (**SLMOM**) cancelling the Mining Licence. In 2018, Marampa SL commenced legal action in Sierra Leone to challenge SLMOM's decision to cancel the Mining Licence ML05/2014, however, the Board has agreed to place legal action against the SLMOM on hold.

The Company reconfirms that it does not currently have tenure over ML05/2014. Whilst no formal application has been made to date, the Company has, and will continue to be, engaged in dialogue with the relevant Sierra Leonean authorities in an attempt to have the Mining Licence reinstated or reissued by mutual agreement. Dialogue has been restricted significantly during the period by the impacts of Covid 19 on travel and government operations. However, the management has continued to be very active in discussions with relevant stakeholders at the SL government to fast-track the process getting the mining license issued again. Some ongoing political turmoil makes a prediction when the government would assign the licence uncertain to some extent, but commitment is shown to re-engage the mining license to Marampa Iron Ore LTD, the 100% owned subsidiary of CLE in Sierra Leone.

Whilst there can be no guarantee that the SLMOM will agree to reinstate or reissue a Mining Licence, if Marampa SL were to successfully recover the Mining Licence, the Board is committed to working with the relevant parties to secure access to the necessary plant and equipment and infrastructure to enable the ramp up of the Marampa Project upon the reissuance of the Mining Licence for the benefit of our shareholders as well as, importantly, the Government and People of Sierra Leone.

EL46A/2011

In 2014, Marampa SL was granted exploration license EL46A/2011. In June 2014 the SLMOM extended EL46A/2011 for a further 2-year term from 31 July 2015 until 31 July 2017. Marampa SL has not paid renewal fees to the SLMOM in respect of EL46A/2011 since 31 July 2017. However, Marampa SL has not received any termination documentation or request for information from the SLMOM, therefore is of the view that EL46A/2011 remains a valid license. Marampa SL has contacted the SLMOM asking them to confirm the status of EL46A/2011 however no response has been received to date therefore tenure over EL46A/2011 remains uncertain. Marampa SL will continue to follow up with the SLMOM to determine the status of EL46A/2011. The management of Marampa SL has continued to be active in discussions with SLMOM to fast-track the process getting the EL46A/2011 to be issued again.

The Board confirms that given the inherent uncertainties relating to the future of the Marampa Project, the carrying value of the Marampa Project in Cyclone Metal's audited accounts was fully impaired as at 30 June 2016 and remains fully impaired.

The Company is currently committing minimum expenditure on the Marampa Project and no exploration activities are currently underway at the Marampa Project.

Kukuna

Dempsey Resources Bermuda Limited holds the Kukuna Iron Ore Project located in Sierra Leone (**Kukuna or Kukuna Project**).

The Kukuna Project is located 120 km northeast of Freetown in the northwest of Sierra Leone and consists of one exploration licence (EL22/2012) covering 68km². The licence comprises rocks known to host specular hematite mineralisation. Dempsey has not paid renewal fees to the SLMOM in respect of Kukuna. However Dempsey has not received any termination documentation or request for information from the SLMOM, therefore is of the view that Kukuna remains a valid license.

The Kukuna Project remains under care and maintenance.

Mining International Pty Ltd

Mining International Pty Ltd (**Mining International**), is a wholly owned subsidiary of Cyclone Metals. The Company holds tenure to 4 mining leases at the Wee MacGregor Project located 40 km southeast of Mt Isa in Queensland (refer Figure 2).

The tenements are located within in the Eastern Fold Belt of the Mt Isa inlier. The tenements are located in the Mary Kathleen Zone/Wonga Subprovince. This area is prospective for a variety of deposit types, most notably structurally controlled epigenetic copper and gold deposits.

Cohiba Minerals Limited (**Cohiba**) has a Farm-in agreement with the Company for mining licences ML 2504, ML 2773 and ML 90098.

No activities were reported for the quarter.

Figure 2 – Wee McGregor Project Location

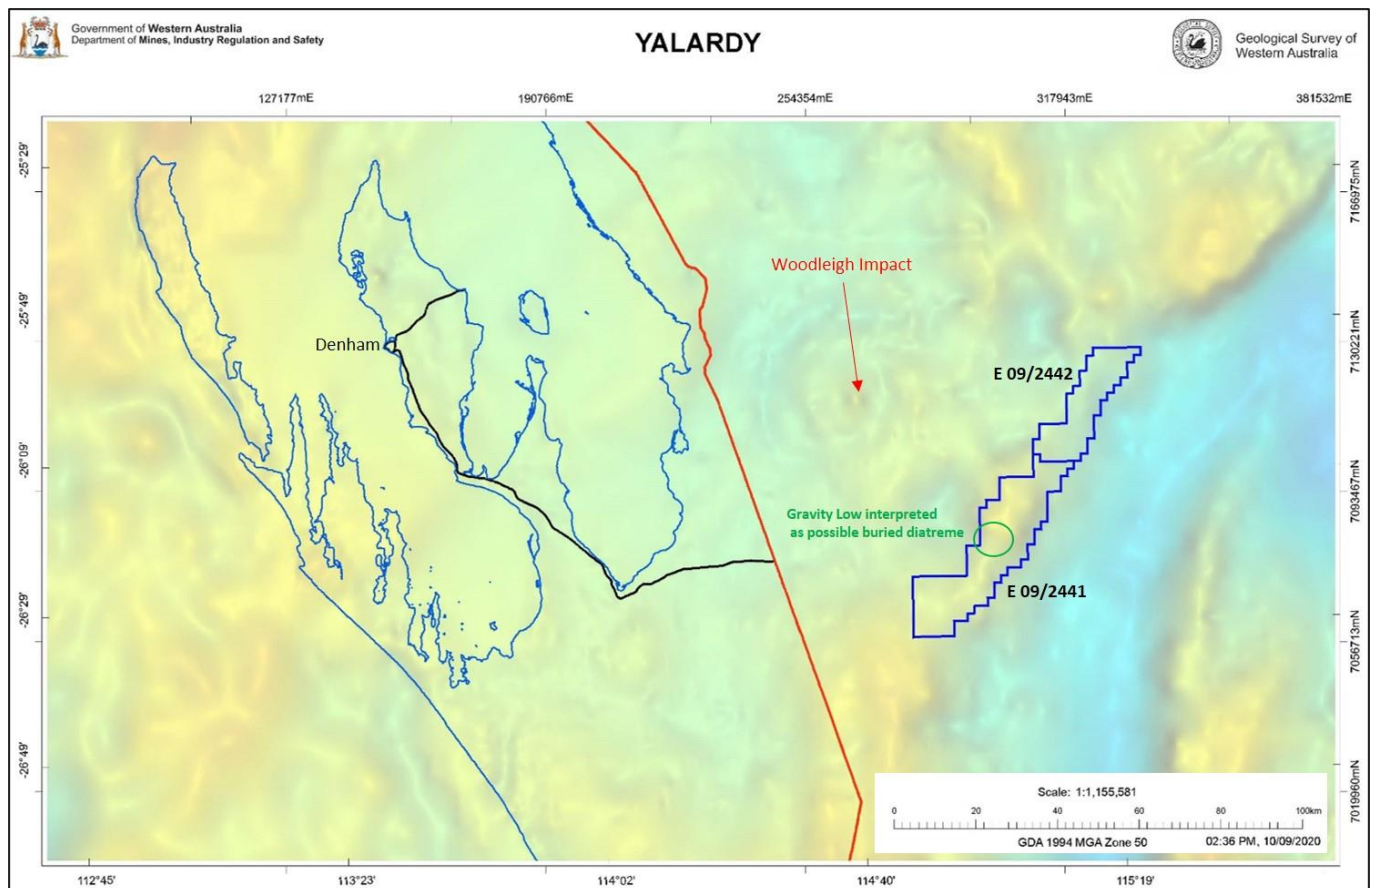

Yalardy

On 11 September 2020, the Company announced that it has lodged applications for two tenements in the Carnarvon basin of WA.

The tenement applications (E 09/2441 and E 09/2442) cover a combined 297 graticular blocks or a total of 914.5 square kilometers starting approximately 33km east of the Overlander roadhouse near the turnoff to Shark Bay (refer figure 3).

Figure 3 – Yalardy Project Location

Recent geochemical sampling over the areas known as “Dogger” and “Sebastian” have identified two rare earth element (REE) anomalies coincident with identified geophysical anomalies that indicate potential for the existence of a buried diatreme beneath the geologically recent sedimentary cover sequences (refer ASX announcement 11 September 2020).

The southern gravity anomaly (Sebastian) presents as a deep gravity low with a coincident void in the TMI magnetics. The density depression and coincident magnetic low can be interpreted as a possible buried diatreme structure with similar dimensions to the Mt Weld REE deposit in the north eastern goldfields of WA. This presents an opportunity for a new REE discovery as the structural environment and geophysical indications may suggest a potential carbonatite source similar to that found at Mt Weld.

The presence of a buried diatreme may also be a potential host to several different mineralisation possibilities.

Announcement authorised for release by the Board of Cyclone Metals.

APPENDIX 1 : TENEMENT STATUS

8.7 **Estimated quarters of funding available (item 8.6 divided by item 8.3)** 0.40

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

* Refer to section 7 for details on further drawdowns on the Winance facility.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Yes

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Yes. Subsequent to the quarter end, the Company announced that the placement approved by shareholders at a general meeting held on 6 October 2020, to raise up to \$2 million has closed well oversubscribed. Shares pursuant to this placement were issued on 7, 15, 16 and 23 October 2020 with excess application funds returns to subscribers.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Yes. The Directors believe that it is reasonably foreseeable that the Company will continue as a going concern based on the following factors:

- Raising additional funds (as outlined above)
- Continued support from external creditors allowing for the deferred payment of certain liabilities
- Continued support from current debt holders of the Company
- Conversion of Winance loan into equity (subject to shareholder approval) (refer ASX announcement 17 September 2020)
- Conversion of certain liabilities into equity as approved by shareholders at a general meeting held on 6 October 2020
- Engagement with the ATO to request the deferral of instalment payments in light of the COVID-19 pandemic
- Realisation of certain of the Company's unencumbered financial assets through the sale of its listed shares (if required)

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
